

Subject: Indiana Telephone Privacy Law

I am quite pleased with the no call list in Indiana as it is.

If I wish to contact any business that I have an established relationship with for the possibility of doing more business I am quite capable of doing so during their normal business hours.

My personal phone is not intended as a means for any business to contact me in an attempt to do more business.

Therefore I am not in favor of the Consumer Bankers Association attempt to weaken Indiana's Telephone Privacy Law with federal regulations.

Sincerely,
Richard Tudor
